

Fold-Up Notes

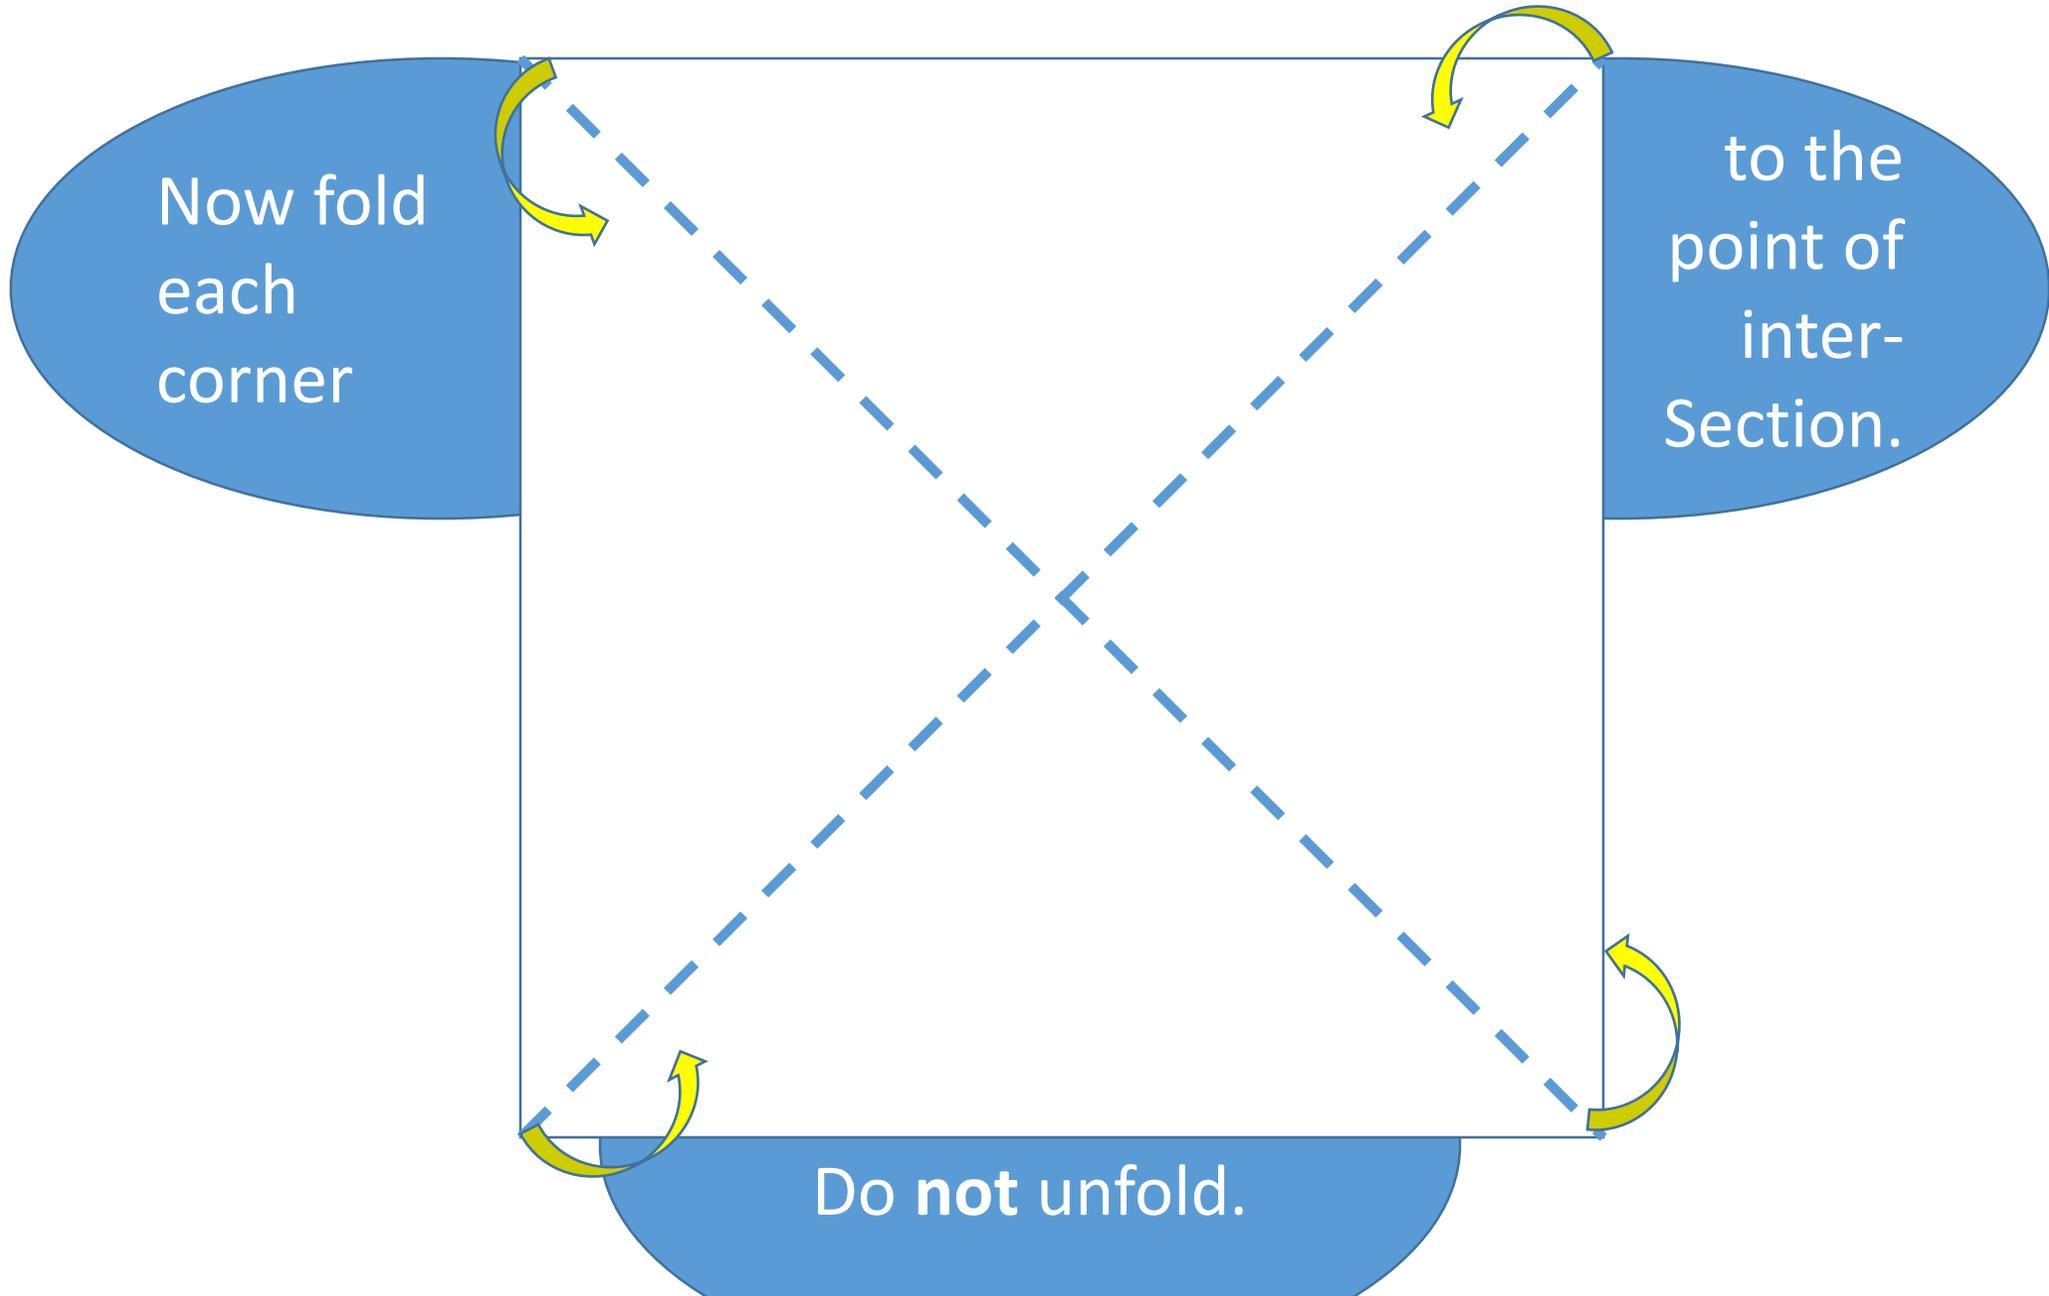

4-Section Fold-up:

Use two
"taco
folds" to

fold your
square
into
fourths.

Then unfold again.

Now fold
each
corner

to the
point of
inter-
Section.

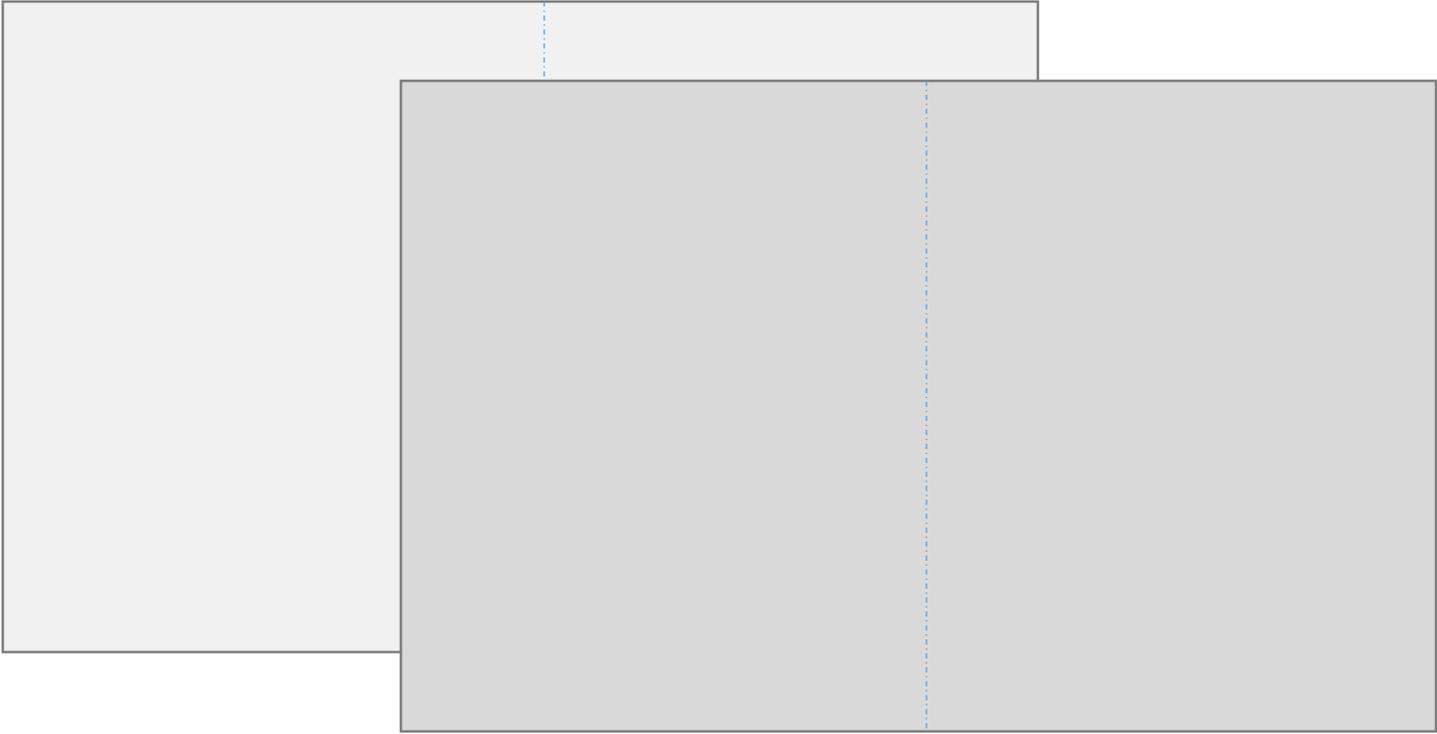

Do not unfold.

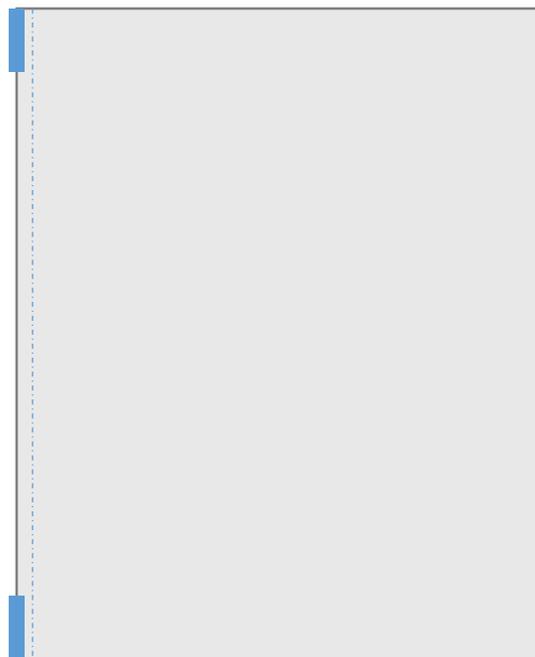

Now you have
outside and inside
sections for notes.

4-page
"booklet"

Fold two papers
with a hamburger
fold.

Trim the papers at
the folded edges,
as follows...

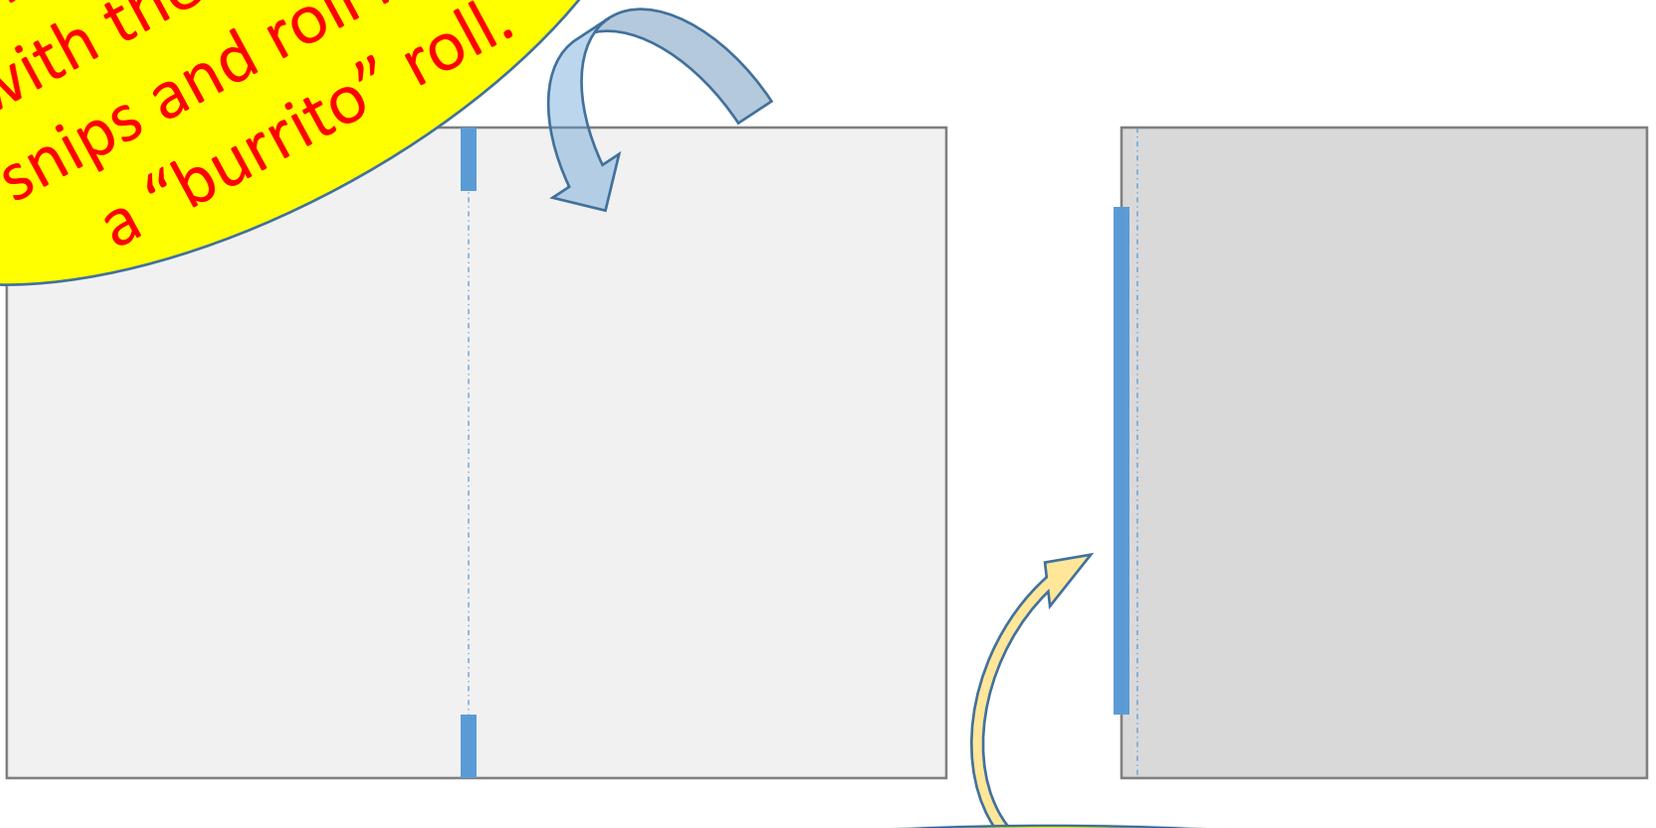

A. Snip about 1"
in on "top" and
"bottom."

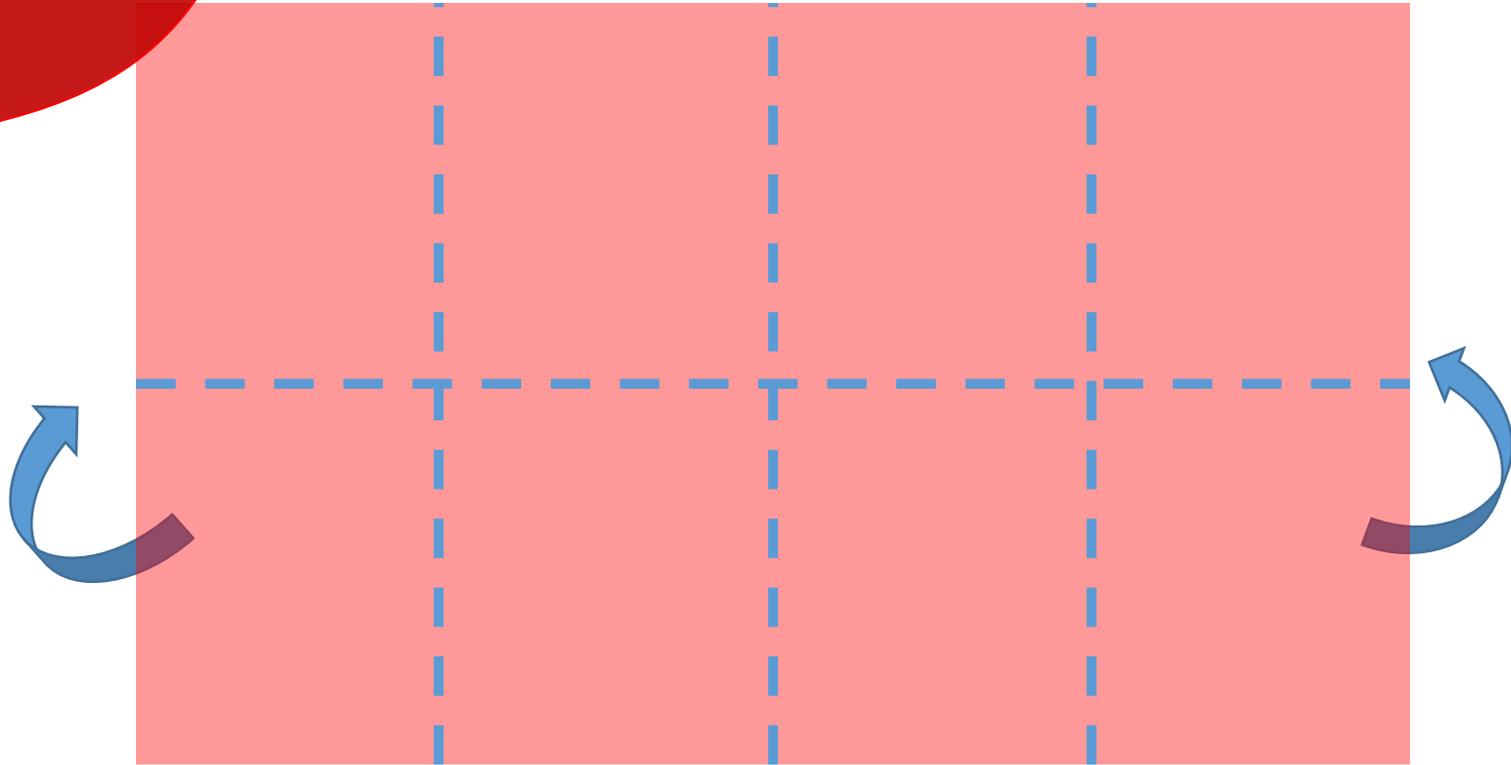

B. Trim out a
narrow strip along
the folded edge.

Unfold the paper with the two small snips and roll it into a "burrito" roll.

"Feed" it through the slot of the other paper and open it up to form a 4-page booklet.

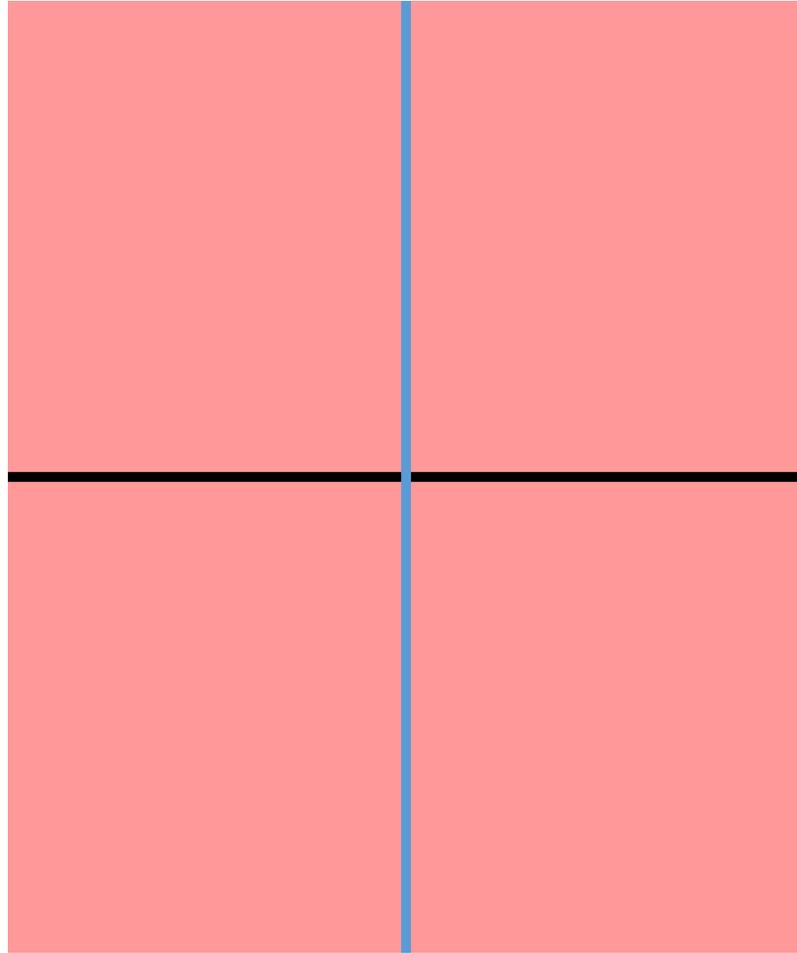

“Closet-Door” Fold-up

Make one hotdog fold and one hamburger fold; unfold.

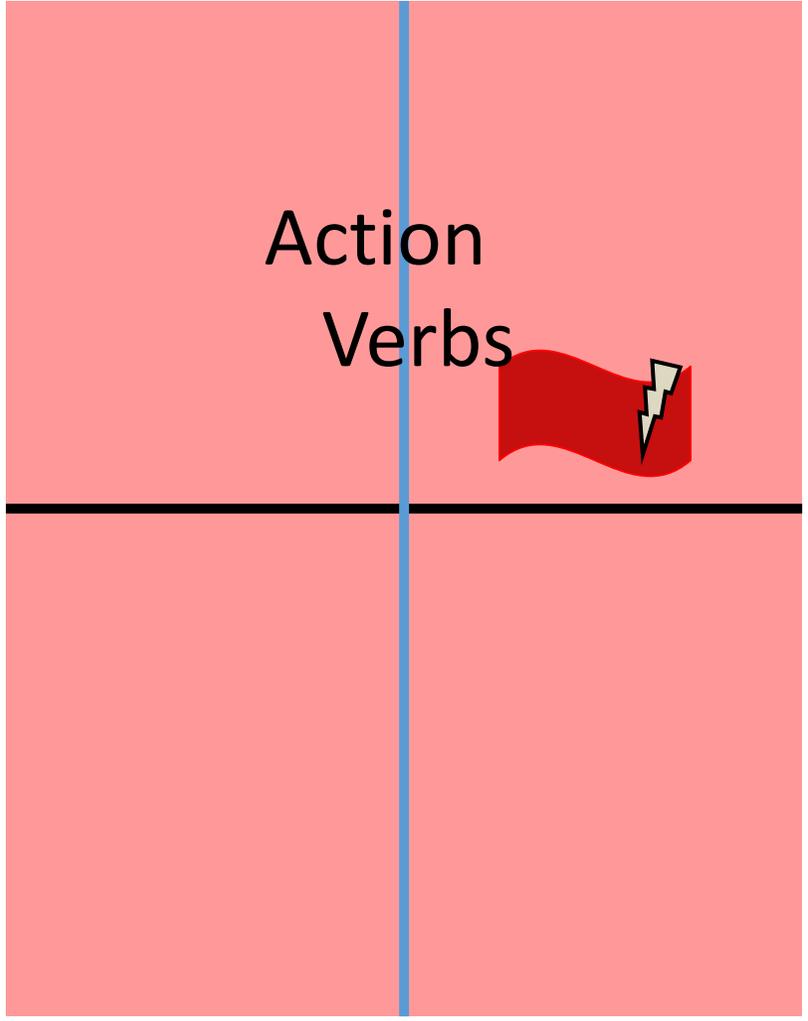

Now fold in the edges to create “closet doors.”

“Closet-Door” Fold-up

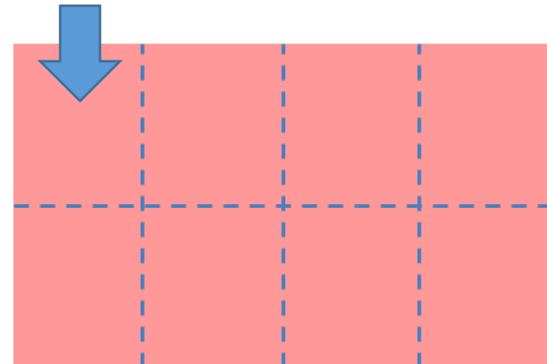

Now snip the front of the “doors” only (black lines) to form four front flaps.

“Closet-Door” Fold-up

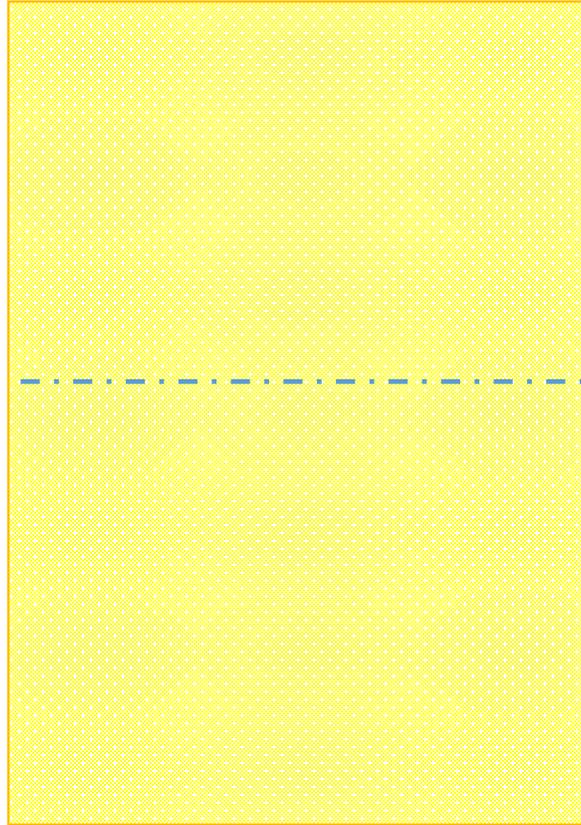

“Closet –Door” Fold-up

Now you have numerous sections for notes – you might want to use a diagram to help students figure out where they go...

**3- or 4-flap
Fold-up notes:**

Fold your paper
horizontally a bit
above the center.

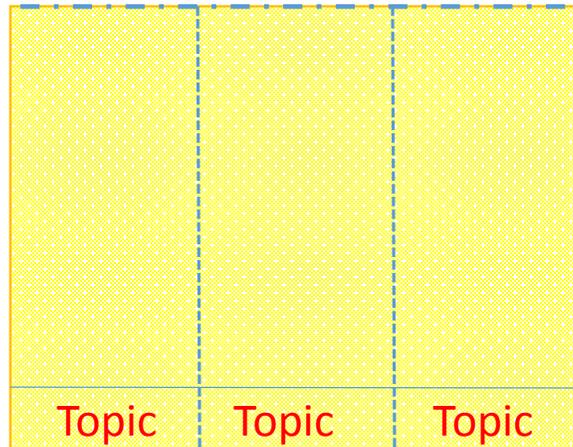

**3- or 4-flap
Fold-up notes:**

Now make 2 or 3
vertical folds for 3
or 4 flaps.

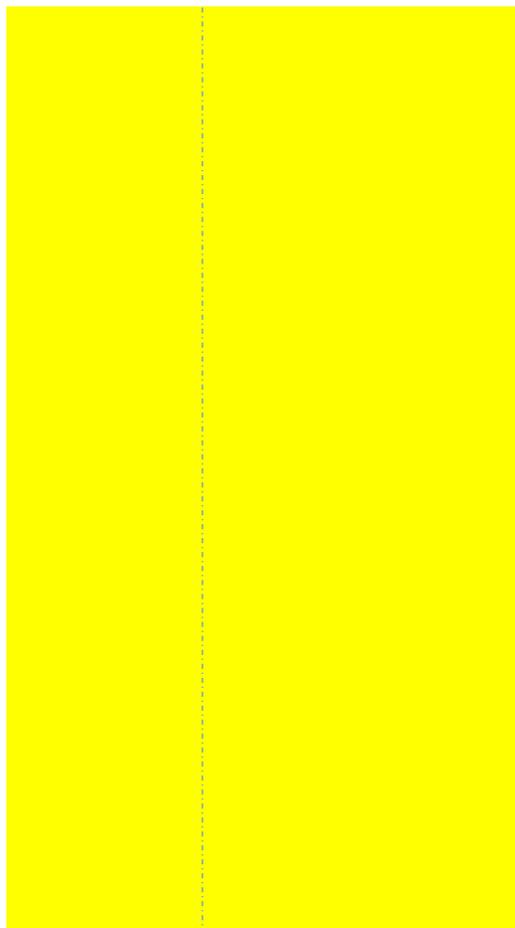

Snip only the front
portion of the
paper to form the
flaps.

You can add
“topic” info at the
base of each flap.

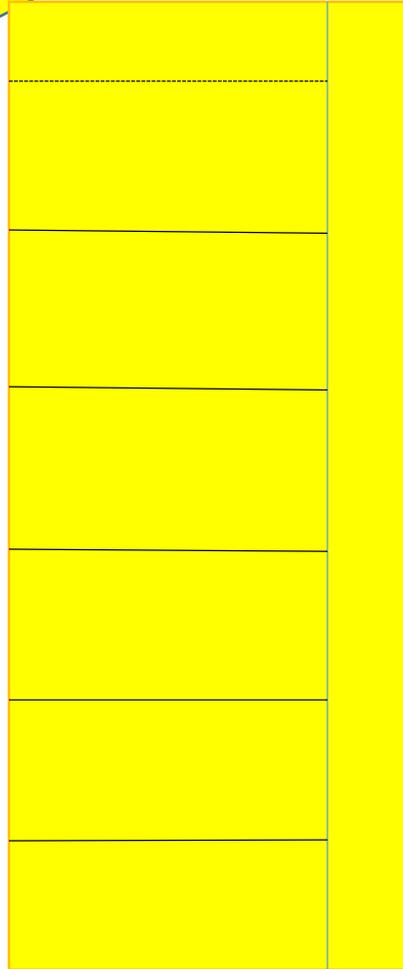

**Vertical
Variation**

**Fold your paper
vertically a bit to
the left of center.**

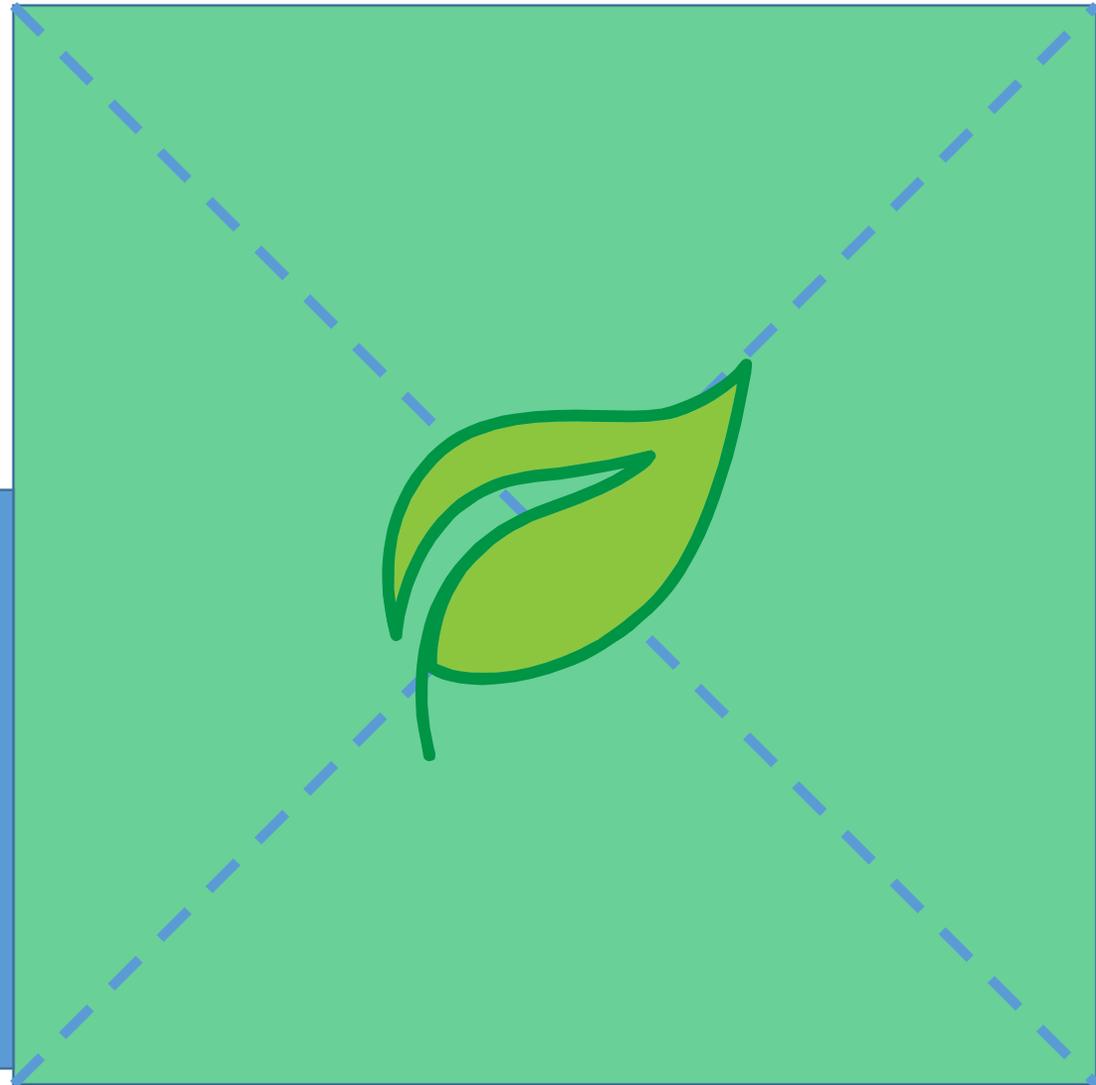

Choose the number
of sections you want.

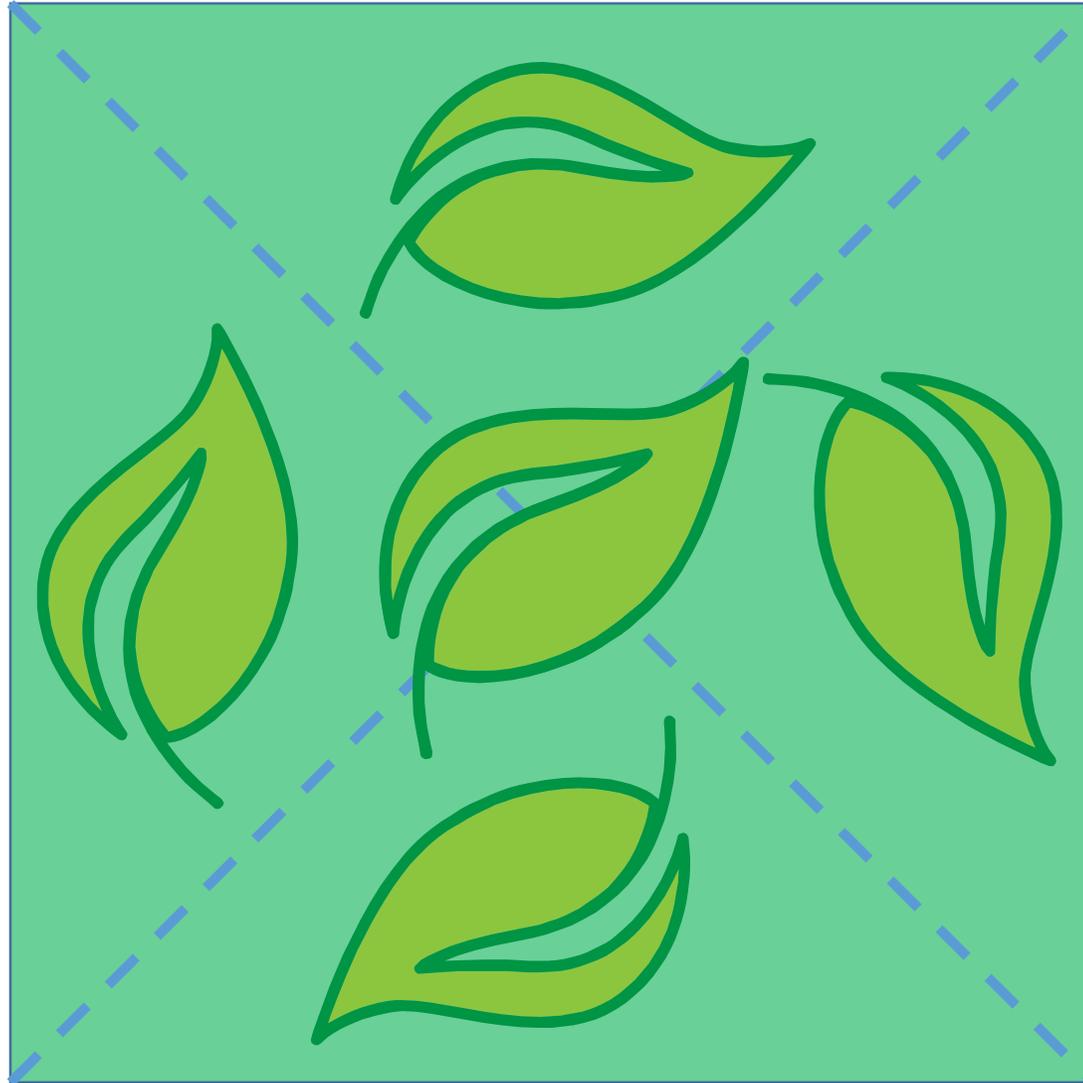

Now mark your lines
and snip them only
on the front flap of
the paper. You can
mark each "tab"
to its
right.

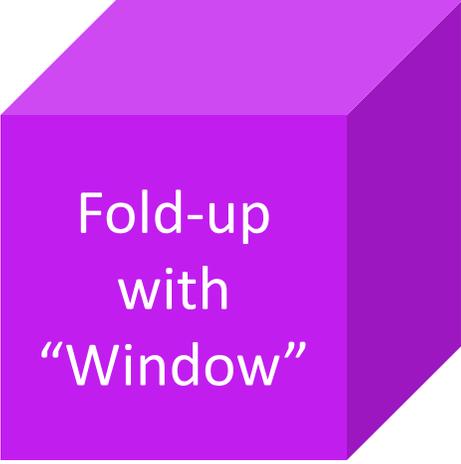

Simple
2-fold Notes

Use two “taco folds” to fold your square into fourths. Then unfold again.

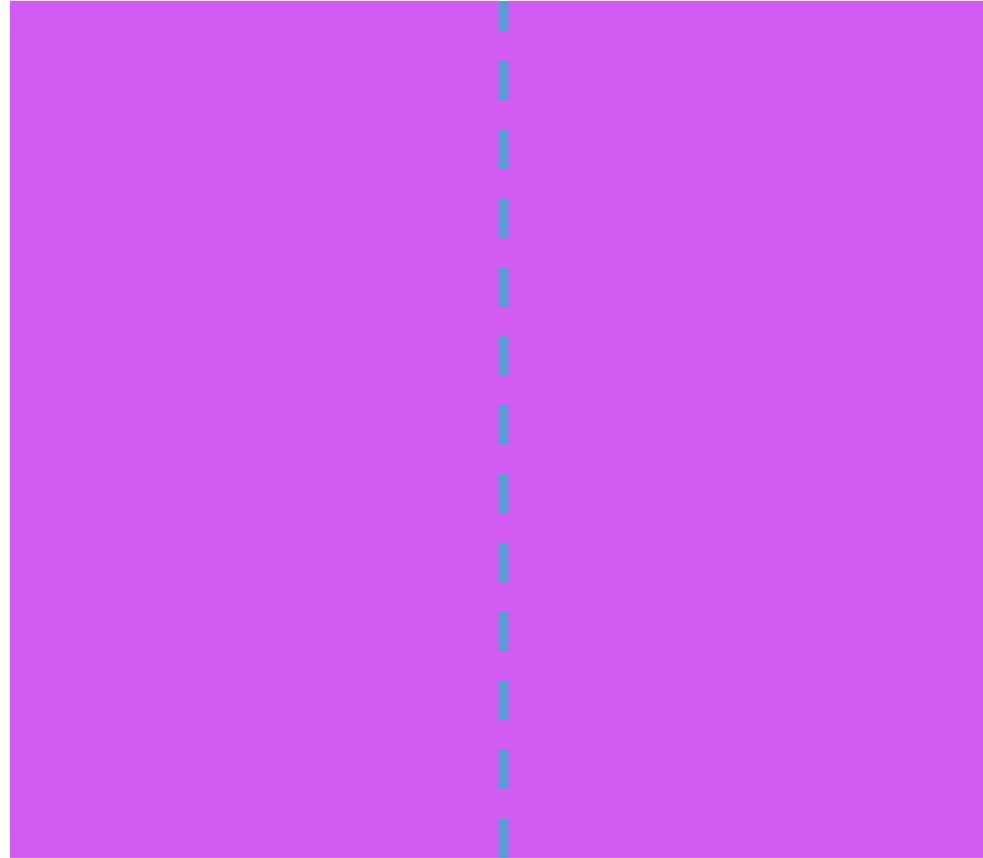

Now you can add notes in a rotating pattern, if you desire.

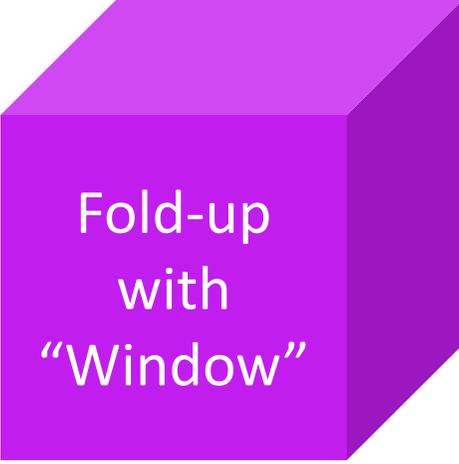

Fold-up
with
"Window"

Make one
"hamburger" fold;
keep folded.

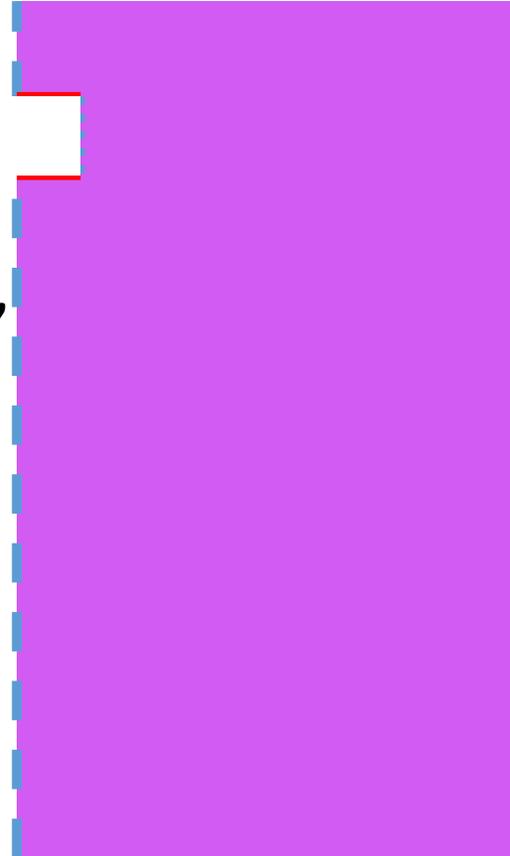

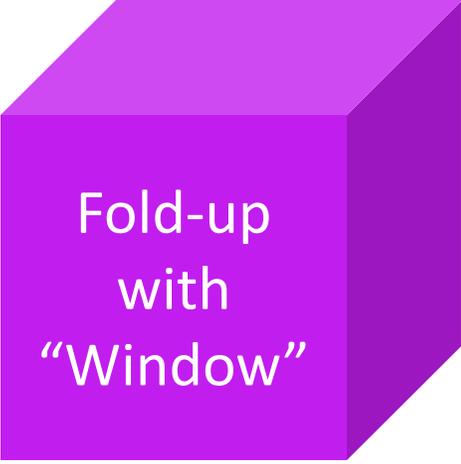

One cm from the top of the fold, make two 1-cm cuts, about one cm apart.

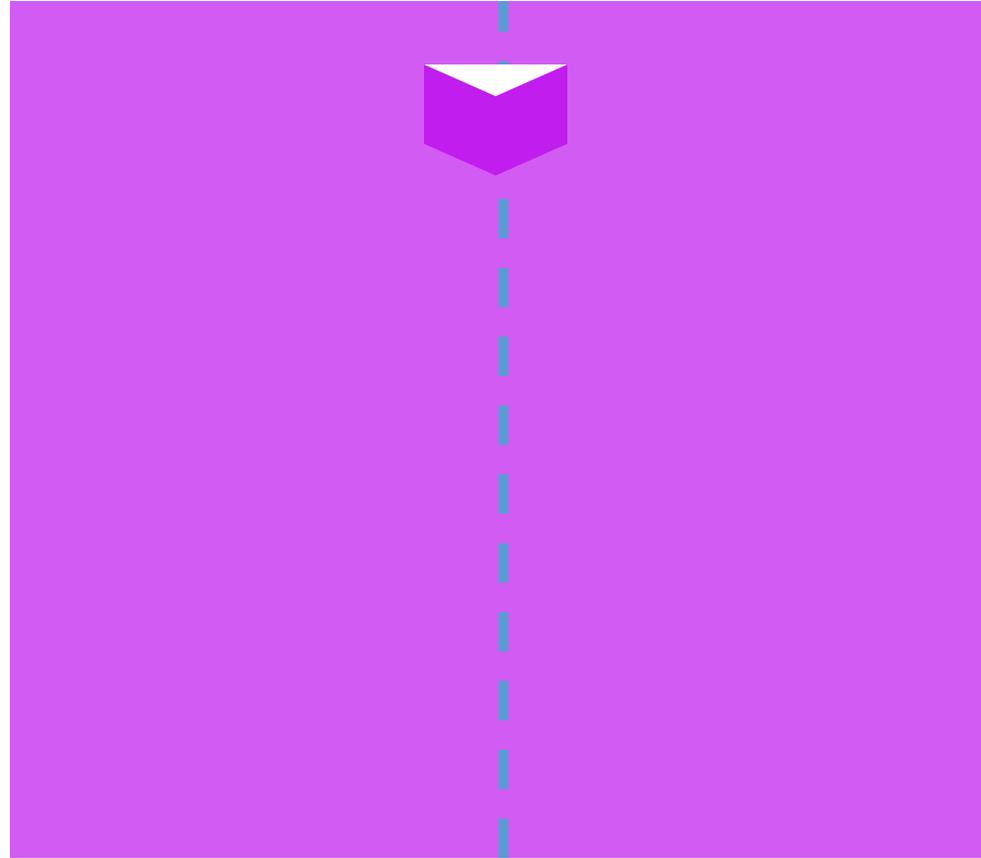

Now fold the flap you have created, creasing it both directions.

Next, "invert" the fold by pushing it through to the inside of the foldable; open it up to see the "box" you have created.

You can use additional "windows," as desired.

Fold-Up Notes . . . Your Turn!

Experiment with your own designs and variations.

The possibilities are many,

including “cootie catchers” and the like.
